Description:

An Indie Next pick“Terrifying . . . Though the geography of the story is that of Cormac McCarthy, the plot shares more territory with Edgar Allan Poe . . . An end that is improbable, dripping with irony, and entirely satisfying.”—Outside“Vaillant writes with power and emotion, affection and respect . . . An eloquent literary dissection of the divide between the United States and Mexico.”—Kirkus Reviews, starred reviewFrom the best-selling author of *The Tiger and The Golden Spruce*, this debut novel is a gripping survival story of a young man trapped, perhaps fatally, during a border crossing.Hector is trapped. The water truck, sealed to hide its human cargo, has broken down. The coyotes have taken all the passengers’

money for a mechanic and have not returned. Those left behind have no choice but to wait. Hector finds a name in his friend Cesar's phone. AnniMac. A name with an American number. He must reach her, both for rescue and to pass along the message Cesar has come so far to deliver. But are his messages going through? Over four days, as water and food run low, Hector tells how he came to this desperate place. His story takes us from Oaxaca — its rich culture, its rapid change — to the dangers of the border. It exposes the tangled ties between Mexico and El Norte — land of promise and opportunity, homewrecker and unreliable friend. And it reminds us of the power of storytelling and the power of hope, as Hector fights to ensure his message makes it out of the truck and into the world. Both an outstanding suspense novel and an arresting window into the relationship between two great cultures, *The Jaguar's Children* shows how deeply interconnected all of us, always, are.

Fiction John Vaillant *The Jaguar's Children: A Novel* Houghton Mifflin Harcourt 978-0-544-29008-2, ebook, 280 pgs., \$12.99 (also available in hardcover, Audible, and audio CD) January 2015 Thu Apr 5 — 08:31 [text] hello i am sorry to bother you but i need your assistance — i am hector — cesar's friend — its an emergency now for cesar — are you in el norte? i think we are also — arizona near nogales or sonoita — since yesterday we are in this truck with no one coming — we need water and a doctor — and a torch for cutting metal [The Jaguar's Children is journalist and author (who cites as sources Luis Alberto Urrea and Charles Bowden; how could you go wrong?) John Vaillant's devastatingly powerful first novel. Mexicans and Nicaraguans, men, women, and children, bakers, students and scientists, have paid coyotes ("They were talking fast all the time, but not as fast as their eyes") to provide safe passage into the United States, welded inside a water truck ("like a bucket of crabs with the lid on and no place to go"). As the book begins, they've been abandoned for two days in the Sonoran Desert of Arizona ("la via dolorosa"). Héctor ("Pollo is chicken cooked on a plate — a dinner for coyotes. This is who is speaking to you now.") finds a contact, AnniMac, with a United States area code in his friend César's phone and tries to reach her. In an attempt to comfort himself and save his sanity, Héctor takes us with him as he "escapes into his head," making audio files as he talks to AnniMac about his home. Héctor talks about his family, Mexican history and geography, religion and mythology, culture and sociology, as he describes the diversity of Mexico, not a monolith, and these people as individuals, not stereotypes. *The Jaguar's Children* is full of rich description. A market in Oaxaca: "It is not even four, but already the first trucks are coming in from the coast with fish and oranges, seashells and coconuts, maybe a special order of turtle eggs hiding in the belly of a tuna, or a crocodile skull with all its teeth. And from the south they come with coffee and mangoes, chocolate, iguanas and velvet huipils, and from the Sierra with calla lilies, beef, pots in all sizes still scarred by the fire that made them." Vaillant's imagery is both profound in its simplicity and brutal in its sophistication. "More and more the tank is feeling and smelling like the intestine of some animal, slowly digesting us." Héctor watches time in the form of the cell phone's battery life and thinks of his beloved grandfather. "Time, you know. Minutes. When my abuelo was young he didn't know what a minute was because in Zapotec there aren't any minutes, only days and seasons and harvests." There is even humor in the midst of tragedy. When she [Héctor's mother] was tired of listening to me, she said, "Héctorcito? How long have there been these Transformers? And I said, "Always, Mamá. Since I was young." And she said, "Yes, well, that is not so long. Our beloved Jesus has been a Transformer for two thousand years." *The Jaguar's Children* is harrowing and beautiful, brilliant and exhausting. The concept is inspired, the plot simple and stark and terrible, the pacing inexorable. The ending is wholly unexpected in the great tradition of magical realism. This is the total package.
